PROFILE INFO

I'm a highly skilled and motivated Software Engineer and data scientist with expertise in Python engineering, Full-stack website development, Data engineering, and Backend Engineering. Proficient in programming languages including HTML, CSS, Bootstrap, Python, Django, Numpy, Pandas, Data mining, and Javascript. Possesses a year of valuable experience at Payfab, contributing to software development, and currently serving as the Head Software Developer at iTechTeam, a dynamic startup, where I have successfully developed backend software for a cutting-edge track chatting app.

WORK EXPERIENCE

HEAD SOFTWARE DEVELOPER

2023 TILL DATE

iTECH TEAM

- Spearheaded the development of backend software for a track chatting app, ensuring optimal performance, security, and scalability.
- Collaborated with cross-functional teams to define project requirements and deliver high-quality software solutions.
- Led a team of developers, providing guidance, code reviews, and mentorship to foster innovation and efficiency.

SOFTWARE ENGINEER

JAN 2023 - JUNE 2023

PAYFAB

- Played a pivotal role in software development, contributing to the creation of innovative solutions for clients.
- Demonstrated expertise in Python engineering and full-stack website development to deliver robust and user-friendly applications.
- Collaborated with clients to understand their needs and translate them into technical requirements.
